Professional Interests

I strive to help patients and their family understand hearing loss and helping them determine the most appropriate treatment. I am most interested and still fascinated with implantable hearing devices, both cochlear implants and bone conducted devices. Here at ENTSC, I am fortunate to be able to work with both pediatric and adult patients and am honored to be a part of my patient's hearing journey.

Personal Interests

I enjoy spending my time away from work with my family and friends. Much of my time is spent riding my bicycle, hiking, and walking my dog. We greatly enjoying traveling and exploring new cities and national parks. When at home we spend much time in the kitchen, playing cribbage, and listening to music.
